My resume

CERTIFICATIONS

Certificate in Mid-Tier Development — IHS Markit / Dev-U. Web Dev Immersive Course — General Assembly.

EXPERIENCE

Senior Engineer Level II

Data Center Inc. (Remote) — Hutchinson, KS

April 2025 · Present

Senior II engineer on a core banking product, designing and implementing scalable features using C# in an Agile environment. Focused on end-to-end delivery, system reliability, and performance improvements that support daily banking operations and operational SLAs.

Founder

ApplyPro.ai — Boulder, CO

September 2024 · Present

Launched a Next.js resume builder with SSR, App Router patterns, Tailwind UI, real-time validation and integrations. Deployed on Vercel with Mixpanel and Stripe, iterated rapidly from user feedback to reach 400+ active users.

Founder

U-Mail.ai — Boulder, CO

April 2024 · Present

Built an AI-powered email and messaging platform integrating Gmail and Firebase for real-time communication. Implemented voice-to-text, Google Meet & Zoom integrations, secure OAuth flows, and Node/Express APIs; expanded into B2B solutions.

Senior Software Engineer

S&P Global — Boulder, CO

February 2018 · February 2024

Diagnosed and resolved complex full-stack issues across numerous applications, improving resilience and performance. Owned security integrations including SAML, SSO and OAuth, and collaborated with product teams to ship reliable, production-grade features.

Web Developer, Client-Facing Team

S&P Global — Boulder, CO

August 2014 · February 2018

Developed and maintained high-traffic live-streaming financial applications, delivering tailored solutions for multinational clients and integrating new features into legacy systems while meeting tight production timelines.
